

PRESS RELEASE

Paris, 9 February 2024

Hoche Avocats advises Excellence Imagerie on the double acquisition of the GIMA and Duroc groups, in the context of Antin Infrastructure Partners' acquisition of a stake in the Excellence Imagerie group.

Excellence Imagerie, a leading French independent medical imaging group, backed by UI Investissement, is about to finalize its plan to acquire a stake from Antin Infrastructure Partners as part of an LBO for a valuation of around 500 million euros.

As part of its development and investment plan and its capital reorganization, Excellence Imagerie welcomes two new leading groups into its network: GIMA, based in Angers, and Imagerie Duroc, based in Paris.

Excellence Imagerie now has four main centres, making it one of the largest medical imaging networks in France. With 160 employees and 60 radiologists, it carries out 400,000 consultations a year.

Excellence Imagerie recently became a purpose-driven company, further anchoring its values of medical excellence and access to care. This approach is supported by expert radiologists, committed nursing staff and excellent medical imaging equipment.
